

XF ML FILM

MULTIWALL BAG LINER

IntePlus® XF Multiwall Bag Liner Film is designed to be used as a liner of multiwall paper bags. It can be used alone for different types of plastic shipping sacks, such as valve bags, OMB (open mouth bags) and FFS (Form-Fill-and-Seal). Approved as USDA's bag liners for World Aid, this film is made for heavy duty shipping.

FEATURES

- Significantly reduces bag breakage rate
- Strong, tough, and high puncture resistant
- Excellent heat-seal ability
- Reduces gauge requirement by 2/3 compared to regular LDPE film

APPLICATIONS

- The film has been approved by USDA to be used as the multi-wall paper bag liners for their World Aid programs.
- Heavy duty shipping sacks
- Form-Fill-and-Seal
- Multi-wall bag liner
